

Perfect Sanitation of the Blood

Is of infinitely greater importance to every individual than sanitation of cities, towns, streets and homes.

It is brought about only by the use of a medicine that has real merit—merit that positively will renovate the vital fluid, expel all disease taints, overcome all hereditary scrofulous tendencies, and give to the blood the perfect purity necessary for perfect health.

Hood's Sarsaparilla does this as no other medicine can.

It is prepared by expert chemists using modern processes, especially to meet the greatest demands that can be made upon a medicine for the blood. It has given satisfaction in so many thousands of cases that we would be almost justified in saying, "It never fails."

It has that merit peculiar to itself that makes it the best medicine for the blood ever devised.

It cures scrofula, boils, eczema, rheumatism, catarrh and all other troubles arising from or promoted by impure blood or low state of the system. It is especially valuable just now, in the Fall season, when the blood needs the warmth and vigor of health to enable one to withstand sudden changes of weather, chilly winds and damp nights; to resist the lodgment of germs of fevers and other diseases.

It will do you good as a cure, as a preventive of sickness and as a conservator of health and strength. We recommend

Hood's Sarsaparilla

Because of its merit, its record, its unequalled success. Get a bottle today.

Sarsatabs

Are gaining rapidly in public estimation, and the sales are doubling up. They are so handy—enable you to carry Hood's Sarsaparilla in your vest pocket. Sarsatabs are

chocolate tablets prepared from Hood's Sarsaparilla itself by a process of evaporation and distillation, and have identically the same curative properties. Sold by druggists or sent by mail on receipt of price. 100 doses one dollar. C. I. HOOD CO., Lowell, Mass.

MANUFACTURERS PROTEST.

Believe in Pure Food, But Want to Use Benzoate of Soda.

New York, Oct. 18.—Food manufacturers from all parts of the country met here to protest against abolishing the use of benzoate of soda as a food preservative. They were members of the National Association of Manufacturers of Food Products.

H. A. Johnson, who is head of the firm of H. A. Johnson & Company of Boston, and the association's president, was in the chair.

Resolutions were adopted commending the work of the government for pure food and pure food laws, but regretting the inconvenience to which business men are put, at the present time by conflicting food laws in different states, and setting forth that, "believing in the harmlessness of benzoate of soda and knowing its necessity," the association should fight to have its use continued.

Kyanize Spar Finish

Is made to stand the rain and sun and wind. It is not affected by heat or cold. The proper finish for outside doors.

Look for this Trade-Mark on Can.

REPUBLICANS FIGHT HARD

Are Trying To Wrest Maryland Away

STAKES ARE VERY HIGH

They Are Said to Include Governor and Legislature—President Roosevelt Is Much Interested in the Outcome.

Washington, D. C., Oct. 19.—The Republicans are trying to wrest control of Maryland from the Democrats, and they have behind them the influence of the federal administration. In official circles here the progress of the contest is watched with increasing interest, and the president himself is said to be deeply concerned personally. The stakes are large and worth fighting for—the governorship, the legislature, the control of the board of public works, with all its patronage, the control of the police force of Baltimore and two United States senators. It is recognized that if the Republicans obtain control of Maryland this year, with the power it will bring them, nothing can prevent the election of a solid Republican Congress next year and the casting of the electoral vote of Maryland for the Republican candidate for president.

The Democrats concede that on the morning of the election the Republicans will open the fight with a solid phalanx of 60,000 negro votes, and as said by a Democratic leader of the state: "We have to put in 60,000 Democratic votes before we can begin to measure up with the white Republicans. In addition to this, Republicans are availing themselves of the personality of Mr. Roosevelt. The word is constantly passed around that the president is hopeful and anxious for Maryland to go Republican this year as a vindication of himself and Mr. Bonaparte, and that it will be accepted as a proof that the people of Maryland endorse his and Mr. Bonaparte's crusade against the trusts and corporations. It is generally accepted here that in the event of Republican victory, Mr. Bonaparte will be the first to resign his seat from Maryland and will stand in the Senate as the personal representative of the president in the fight upon corporations."

BRYAN HOPES TO BEAT TAFT.

Issue Apparently to Be Extension of Roosevelt's Policies. Washington, D. C., Oct. 19.—The friends of William J. Bryan have been aware for some time past that he would within a very short time make public declaration of his willingness to be the nominee of his party for the presidency next year. Recently he wrote to a member of the faculty of George Washington university that he would probably make an important announcement on the occasion of a lecture on political science which he is to deliver before the students of the university in November. Mr. Bryan is a candidate in earnest and was never more hopeful of success in his career, and that is saying much, for he is naturally optimistic. He has told all his friends that Mr. Roosevelt will not again be a candidate, and that the nominee will be Taft, and that he believes

Drinking Men Not Wanted

The above sign is now seen in many shops and offices in this city, because drinking men are unreliable.

Competition is too keen and life is too strenuous for an employer to keep men on his payroll whose nerves are unsteady and whose brains are not clear.

Every line of business is beginning to close its doors to drinking men.

Drunkenness is a disease and like most diseases, has its remedy. Orlene is the reliable treatment and is sold under a positive guarantee to effect a cure or your money will be refunded. Orlene is in two forms; No. 1, which can be used without the patient's knowledge in tea, coffee or food; and No. 2, for those who wish to be cured.

The guarantee applies to both forms. Mailed in plain sealed package on receipt of \$1.00. Write for free booklet, mailed in plain sealed envelope. The Orlene Co., Washington, D. C., or Rickett & Wells, Barre, Vt.

Reversing the practice of many dealers, we please our customers first and then ourselves.

OUR FISH MARKET

Is supplied with the freshest, sweetest and plumpiest fish. They reach us soon after leaving their native element. The following are now in season: Halibut, Sword Fish, White Fish, Haddock, Cod, Mackerel, Flounders, Lake Trout, Pike, Blue Fish, Sea Trout, Finnan Haddie, Oysters, Clams and others.

CITY FISH MARKET.

he can defeat the secretary of war. He recently defended one of his lieutenants who had praised the acts of the president. "Give the president credit for the good that he does, but point out that he does not go far enough," said Mr. Bryan. That seems to be the plan of the campaign. Mr. Bryan's friends have given some consideration to persons available for second place on the ticket with their favorite. The statement that the Bryan men have decided the question in favor of Governor Johnson of Minnesota is denied by those in position to speak. Lieutenant-Governor Chandler of New York is very much in favor for second place.

GILLETTE TRIAL PROCEEDS.

The Action of "Stranger" and Jury Explained. New York, Oct. 18.—Council for the defense in the trial of Dr. Walter R. Gillette, former vice-president of the Mutual Life Insurance company, who is on trial charged with perjury, informed the court yesterday that the mysterious young man who visited a number of the talemen after they had been subpoenaed, was a private detective who had been employed to inquire into the character and standing of the jurors on the panel. There had been no instructions given to visit the talemen personally, counsel said, and no harm or wrong had been intended. The explanation was satisfactory to the prosecution and to Justice Dowling. The work of securing a jury in the case continued yesterday.

SUNDAY GOLF GETS DEFENDER

Rev. Julian C. Jaynes of West Newton Unitarian Church Thinks Golf in the Afternoon Permissible.

Boston, Oct. 18.—Newton golfers and autoists are giving their hearty approval to a proposition made by the Rev. Julian C. Jaynes, pastor of the West Newton Unitarian church, for a divided Sabbath—the morning for church and the afternoon for recreation. Some who don't warm up to the first part of the proposition are comforted by the thought that they might be excused if they slept late Sunday mornings after a busy week. Mr. Jaynes outlined his ideas on Sunday observance at the first meeting of the Newton Unitarian club. "I would welcome the Sunday that could be divided so that the morning could be devoted to church and the afternoon left free to any man to enjoy himself in a rational manner without feeling as if he were breaking the law. There ought to be removed from the statute books many of the present laws which prohibit many innocent pursuits on Sunday. Any law that is laughed at by the best people is worse than no law at all."

"Sunday in Newton" was the subject of the evening. Mr. Jaynes could not have been in the city in the afternoon. The present Sunday, he said, is a mixture of hymns and auto horns. "The Rev. Lawrence McClure agreed that the church should receive attention on Sunday mornings. "I would spare half of you to death if I told you what I think you might do Sunday afternoons."

BIG BONUS FOR STEAMSHIPS.

About \$5,000 Daily For The New Cunarders. Washington, Oct. 18.—By reason of their speed, the new Cunarders, the Lusitania and Mauretania, will receive from the United States government from \$4,000 to \$5,000 every time they leave New York, for carrying first class mail destined to Europe. An order to this effect has been issued by Second Assistant Postmaster General McCleary, and the Lusitania took her first consignment of mail on her last sailing. No contract to this effect is necessary, as the rate to be paid—thirty-five cents a pound—is fixed by international arrangement between the authorities of America and Europe.

The only contract this government has for carrying the mails to Europe is with the American line, to which is paid a subsidy amounting to \$4 a mile on the outgoing voyage, no matter what amount of mail is carried. The steamers of the American line sail Saturday from New York, and it has long been the custom to the postal authorities to send mail on any steamer which might be sailing on any other day of the week, when such shipments would expedite their arrival at their destination. For such shipments the international rate has been paid. Notwithstanding the Lusitania and her sister ship when in communication will carry first-class mail, the subsidy to the American line will continue under her contract, and she will receive mileage pay as usual.

DOG TRAVELS 300 MILES AND FINDS HIS MISTRESS.

She Finds Him Waiting For Her in Front of Lodgings.

Chicago, Oct. 18.—Left in Columbus, O., more than 300 miles away, on March 18 last, Trix Clark, pet dog and companion of May Clark, aged sixteen, of 245 North Clark street, suddenly turned up in Chicago Thursday and discovered his mistress, having made one of the most remarkable journeys performed by an animal on record, and accomplished the additional feat of singling out the family with whom he formerly lived from among more than 2,000,000 people.

When Miss Clark came out of a restaurant Thursday the dog was sitting and gazing in front of her lodgings. At the sight of her, he dashed forward, and before she realized what was happening, he had both paws around her neck. Miss Clark and her mother have been living in their present quarters only three weeks.

Would Use Benzoate of Soda as Preservative.

New York, Oct. 19.—Food manufacturers from all parts of the country met here to protest against abolishing food preservative. They were members of the National association of manufacturers of food products. H. A. Johnson, who is head of the firm of H. A. Johnson & Company, of Boston, and the association's president was in the chair. Resolutions were adopted commending the work of the government for pure food and pure food laws, but regretting the inconvenience to which business men are put, at the present time, by conflicting food laws in different states, and setting forth that, "believing in the harmlessness of benzoate of soda and knowing its necessity," the association would fight to have its use continued.

HOME RECIPE EASILY MIXED

Relieves Worst Forms of Rheumatism Like Magic

TO BE TAKEN AFTER MEALS

Acts Promptly on The Kidneys and Bladder and Should Be Given a Trial By All Sufferers—Valuable Prescription.

Cut this out and put it in some safe place, for it is valuable and worth more than anything else in the world if you should have an attack of rheumatism or bladder trouble or any derangement of the kidneys whatever.

The prescription is simple, and can be made up by anyone at home. The ingredients can be had at any good prescription pharmacy, and all that is necessary is to shake them well in a bottle.

Here it is: Fluid extract dandelion, one-half ounce; compound Kargon, one ounce; compound syrup of sarsaparilla, three ounces.

Take one teaspoonful after each meal and at bedtime. A few doses is said to relieve almost any case of bladder trouble, frequent urination, pain and swelling, weakness and backache, pain above the kidneys, etc. It is now claimed to be the method of curing chronic rheumatism, because of its direct and positive action upon the eliminative tissues of the kidneys. It cleanses these sponge-like organs and gives them life and power to sift and strain the poisonous waste matter and uric acid from the blood relieving the worst forms of rheumatism and kidney and bladder troubles. The extract dandelion acts upon the stomach and liver and is used also extensively for relieving constipation and indigestion. Compound sarsaparilla cleans and enriches the blood.

As you or anyone of your family, especially the old folks, may be attacked at any time it would be wise to cut this out and save it.

A well-known local druggist is authorized that this prescription is safe to use at any time.

Mix it yourself.

CANADA NEEDS MORE IMMIGRATION

So Says Rudyard Kipling, who Has Now Reached Toronto, After a Tour of the Northwest Country.

Toronto, Can., Oct. 18.—"Pump in the immigrants from the old country; pump them in." That is the solution Rudyard Kipling suggests for the Asiatic problem on the Pacific coast. Kipling, accompanied by his wife, is here from a tour of the Canadian Northwest.

Immigration is what Canada wants in the west, said Kipling. "You must have laborers there. You want immigration, and the way to keep the yellow man out is to get the white man in. If you keep out the white then you will have the yellow man, for you must have labor. Work must be done and there is certain work a white man won't do so long as he can get a yellow man to do it. Pump in the immigrants from the old country. Pump them in. England has 5,000,000 of people to spare."

Mr. Kipling expressed the opinion that both in the mother country and in Canada the labor party is opposed to immigration. "In England," he said, "the party is opposed to immigration because it would remove its great grievance with regard to the unemployed. In Canada there is a feeling in opposition to immigration because labor feels that it will be swamped."

Mr. Kipling, on being asked if the statement which appeared in a local paper that he was in Canada on behalf of the British government and to formulate a scheme for their consideration as to Asiatic immigration was true, laughed and said: "I have still some sense of humor left." Pressed for an answer in the affirmative or negative, he said, laughing merrily: "Well, say that I am."

TO CURE A Cold in One Day

Take LUXATIVE BROMO Quinine Tablets. Cures colds and cures money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

MARCONI SATISFIED.

Inventor Gives Some Details of First Day of Wireless.

Halifax, N. S., Oct. 19.—"I am perfectly satisfied," said Mr. Marconi yesterday when asked about the results of Wednesday's work of his wireless telegraph system. "We are now prepared to accept a limited number of transatlantic messages for transmission."

"You must not confuse events now with those of three years ago, when the first message was flashed across the ocean. Today we are merely throwing open our doors to the public and inaugurating the work for which our company was formed. The bulk of our messages today emanate from the newspapers."

"One message, however, addressed to the British people from the premier of Canada was sent Thursday, while two were received from the Canadian commissioner in London, Lord Strathcona. I am not permitted to give the text of these messages, though I may say that they are all of a congratulatory nature."

Mr. Marconi said that over 10,000 words had been received and sent and not a single word had to be repeated. Within a few days, he added, a press service would be inaugurated between the towers and ships at sea.

KINGSFORD'S OSWEGO

Silver Gloss Starch

For 15 years the best for all kinds of starching. May be boiled in or out of water, and used cold water (requiring no boiling). Either way gives perfect results. One can clean the clothes, wash, iron, wash, starch, etc. All grocers.

FLED FROM FISKE HOUSE IN FLAMES

Occupants of Famous Hotel at South Hope, Me., Returned and Saved Furniture.

Rockland, Me., Oct. 18.—The Fiske house at South Hope, a 2½-story frame hotel, famous in this locality for 30 years as a place for social gatherings, was burned early yesterday, together with a dance hall, large stable and ice house.

Mrs. Cyrus Packard, wife of the landlord, heard flames crackling in the woodshed, and gave the alarm. The dozen occupants of the buildings escaped with out much difficulty, and saved a portion of the furniture.

Twenty volunteer firemen and a hand tub from West Rockport saved surrounding property. The buildings were owned by Mrs. Selma Henderson and cannot be replaced or less than \$10,000. There is a partial insurance.

Be Sure

Do not trust too much to your own judgment in medical matters. Consult your doctor frequently. He knows best.

Hard colds, hard coughs, severe bronchitis, weak throats, weak lungs. We wish you would ask your doctor if he knows of anything better for these troubles than Ayer's Cherry Pectoral. We believe it is the best medicine you could possibly take. But ask your doctor, and thus be sure to make no mistake. J. C. Ayer & Co., Lowell, Mass.
